PROFESSIONAL WORK EXPERIENCE

Wasabi Technologies LLC.

Arizona, Remote

Senior Technical Support Engineer

April 2026 - Present

- Resolved **3,000+** enterprise cases and **250+** high-severity production incidents as a primary escalation point for enterprise customers.
- Developed cogent automation systems for **DMCA compliance** while managing **ransomware recovery** and strict **RTO/RPO** targets.
- Executed the **migration** of 100+ Lyve Cloud enterprise customer environments by transferring **10+ Petabytes** of data to Wasabi.
- Led **24/7 on-call** rotations, **RCAs**, and log parsing via **Prometheus, Grafana**, and ELK/Splunk to maintain 99.9%+ availability and SLOs.
- **Mentored** 10+ junior and senior engineers, improving team troubleshooting speed.
- Partnered globally with Sales, Product, and Development teams to escalate complex bugs and improve core service quality.

Cloud Technical Support Engineer

Oct 2023 - March 2026.

- Configured enterprise **SSO (SAML/OIDC), IAM, and KMS**, and led 500+ **live debugging sessions** with customers and vendors to resolve integration issues with third-party tools (Veeam, Acronis, Nakivo) on S3, strengthening customer trust in Wasabi.
- Achieved **Subject Matter Expertise in IAM, SSO, and Covert Copy**; authored 10+ articles and delivered instructional videos for internal teams and public Wasabi Knowledge Center platforms.
- Developed “**Schedulabi**,” an internal workflow automation platform replacing WhenToWork and streamlining scheduling across 30+ users.; built a custom **Streamlit** dashboard tool using Pandas to maximize support efficiency.

Tesla, Inc.

Lathrop, CA

Software Engineer Co-op

Feb 2023 – May 2023

- Worked on **Spockmap**, an internal diagnostic platform, developing **Python telemetry ingestion pipelines** and **Dockerized SQL ETL workflows** processing 1M+ battery telemetry records/day and powering factory dashboards used by **50+ engineers**.

eMetric LLC.

San Antonio, TX

DevOps Engineer Intern

May 2022 – Aug 2022

- Worked on iTester, a k-12 cloud assessment platform by implementing a **bulk file upload feature** supporting 500+ submissions through **batch processing** workflows, while contributing to CI/CD pipelines and assisting deployment and **troubleshooting** of microservices on Azure Kubernetes Service, improving file processing efficiency.

TECHNICAL SKILLS

- **Certifications:** AWS Associate - Solutions Architect, Developer. AWS Practitioner - AI, Cloud
- **Cloud & DevOps:** AWS (EC2, S3, RDS, DynamoDB, Lambda, API Gateway, VPC, IAM, CloudWatch, CloudTrail, ELB/ALB, Systems Manager, CloudFormation), Docker, Kubernetes (EKS), Jenkins, CI/CD Pipelines, Terraform
- **Networking:** TCP/IP, DNS, HTTP/HTTPS, TLS/SSL, VPC (Peering, Transit Gateway), NAT Gateway, VPN, AWS PrivateLink, Route 53, Security Groups/NACLs
- **Programming & Scripting:** Python, Java, Bash scripting, RESTful APIs, JSON, YAML
- **Databases:** SQL (PostgreSQL, MySQL), NoSQL (MongoDB, DynamoDB, Redis, Elasticsearch)

EDUCATION

Master of Science, Computer Science, Arizona State University, Tempe

Aug 2021 - May 2023

Bachelor of Engineering, Electronics & Telecommunications, PICT, Pune

Jul 2015 – Jun 2019

RELEVANT PROJECTS

AWS Face Recognition as a Service (Cloud Computing, ASU)

Jan 2022 – May 2022

- IaaS: Developed elastic cloud app using AWS resources (S3, SQS, EC2) for face recognition with deep learning (CNN) on user-supplied images, with scalability for user demand and concurrent requests.
- PaaS: Created real-time Face Recognition app using Raspberry Pi and AWS Lambda functions for serverless computing, optimizing cost-effective processing of face recognition tasks.
